Hello boys and girls! Did you know that the 2018 Winter Olympics (Olympic Games) were held in South Korea? Or that the upcoming 2021 Summer Olympics are in Japan and the 2022 Winter Olympics in Beijing? Whether you are heading to northeast Asia or not, doesn't it seem like a good time to learn some Asian language characters? Your parents might not even know what they are! Here's the solution. I have made ten books for you in 4 different languages: your native English, and on the same page you will see the word/meaning in Chinese, Japanese, and Korean. Isn't that cool? Yes, I do speak these languages and I want to give you an easy way to understand these awkward figures. Even though we have translating tools at our fingertips, the best way to experience a culture is to actually learn the language. Plus, learning these languages is not hard. Do you know why? Because all of them are rooted in Chinese! You might see similarities as the book progresses. If you already know some of these languages, you can still use these books to learn one or any combination of the others. I can't wait for

you to be able to read and understand these characters. It is so valuable to know these Asian languages. Not only will you see them in these 3 countries, but also anywhere in the world that has a Chinatown, Japan town, or Koreatown! You will be a super star!
