

# 9th Geoscience Conference For Young Scientists: Exploring the Wonders of Ekaterinburg, Russia, in February

**About the 9th Geoscience Conference For Young Scientists**

The 9th Geoscience Conference For Young Scientists is a highly anticipated event that will take place in Ekaterinburg, Russia, in February. Known for its rich history, vibrant culture, and stunning natural landscapes, Ekaterinburg is the perfect backdrop for this international gathering of young geoscientists.

This conference aims to bring together aspiring geoscientists from around the globe to share their research findings and ideas, explore new developments in the field, and engage in enriching discussions that push the boundaries of geoscience knowledge.

**Minerals: Structure, Properties, Methods of Investigation: 9th Geoscience Conference for Young Scientists, Ekaterinburg, Russia, February 5–8, 2018 (Springer ... in Earth and Environmental Sciences)** by Carol Kilby(1st ed. 2020 Edition, Kindle Edition)

## Exploring Ekaterinburg

Located at the foothills of the Ural Mountains, Ekaterinburg offers a unique blend of urban sophistication and natural beauty. Participants of the conference will have the opportunity to discover the city's historic landmarks, such as the Church on Blood, which commemorates the tragic events of the Russian Revolution, and

the Sevastyanov House, an architectural gem that reflects the city's cultural heritage.

Beyond its cultural attractions, Ekaterinburg boasts breathtaking landscapes that are sure to captivate conference attendees. The nearby Ural Mountains are a haven for outdoor enthusiasts, providing the perfect setting for hiking, skiing, and wildlife exploration.

## **Conference Highlights**

The 9th Geoscience Conference For Young Scientists will feature a diverse range of sessions and workshops, offering participants the chance to delve into various subfields of geoscience and expand their knowledge. From geological mapping and mineral exploration to climate modeling and environmental sustainability, there will be something for everyone.

## **Keynote Speakers**

The conference will welcome renowned experts in the field of geoscience as keynote speakers, sharing their insights and expertise with the young scientists. These speakers will inspire attendees and provide valuable guidance for their future careers.

## **Poster Presentations**

Participants will have the opportunity to showcase their research through poster presentations, allowing them to present their findings in a visually engaging and interactive format. This will foster meaningful discussions, encourage collaboration, and provide valuable networking opportunities.

## **Field Trips**

Field trips are an integral part of the conference, giving participants the chance to explore the geologically diverse region surrounding Ekaterinburg. These excursions will provide hands-on experience, allowing young scientists to observe geological phenomena first-hand and deepen their understanding of the natural world.

## **Networking Events**

Networking is a crucial aspect of any conference, and the 9th Geoscience Conference For Young Scientists ensures ample opportunities for participants to connect with fellow researchers, industry professionals, and potential collaborators. From informal gatherings to structured networking sessions, attendees will have the chance to establish long-lasting relationships that can shape their future careers.

## **Registration and Important Dates**

Registration for the 9th Geoscience Conference For Young Scientists is now open, and interested participants are encouraged to secure their spots early. Early bird registration offers discounted rates, so it's advantageous to register as soon as possible.

Here are some important dates to keep in mind:

- Abstract submission deadline: January 15th, 20XX
- Early bird registration deadline: January 31st, 20XX
- Conference dates: February XX-XX, 20XX

For more information and to register for the conference, please visit the official website: [www.geoscienceconferenceekaterinburg.com](http://www.geoscienceconferenceekaterinburg.com)

The 9th Geoscience Conference For Young Scientists in Ekaterinburg, Russia, promises to be an unforgettable event that brings together young researchers from around the world in the pursuit of advancing geoscience knowledge. With its captivating beauty and rich cultural heritage, Ekaterinburg provides the ideal backdrop for this conference, ensuring an enriching experience for all attendees.

Don't miss out on this opportunity to connect with fellow scientists, learn from industry experts, and explore the wonders of Ekaterinburg. Register now and be a part of this exciting scientific gathering!

The book comprises the proceedings of the 9th Geoscience Conference for Young Scientists co-organized by the Institute of Geology and Geochemistry and the Institute of Mineralogy (Urals Branch of Russian Academy of Sciences) and Ural Federal University and held in Ekaterinburg, Russia, on February 5-8, 2018. The book is devoted to the relevant issues of crystal chemistry and mineral typomorphism; the structure and physico-chemical and technological properties

of minerals; the computational modeling of mineral structure and properties. Much attention is drawn to the latest advances and applications of physical methods of investigation of mineral structure and composition, in particular, X-Ray diffraction, spectroscopic (optical, vibrational, ESR, Moessbauer, etc.) and microscopic (SEM, TEM, AFM, etc.) studies, as well as the methods of chemical and isotopic analysis. This book presents the current research trends of space and planetary mineralogy (meteorites, regolites, tektites). The book is intended explicitly for the specialists in the earth and planetary sciences.
