With the click of a button, your child can hear the soothing voice saying "A is for apple" or "D is for duck". This auditory reinforcement helps reinforce the letter-sound correspondence, further enhancing their learning experience.

In addition to the voice overs, each letter is also accompanied by a fun and interactive mini-game. Your child can tap on the apple to see it change color or make the duck quack. These interactive elements encourage active participation, making learning the alphabet an enjoyable adventure.
