### Why Use Simplified Chinese and Pinyin?

Simplified Chinese is the official writing system in Mainland China, Singapore, and Malaysia, making it highly useful for both business and cultural interactions. Pinyin is an essential tool for learners because it uses the Latin alphabet to represent the sounds of Chinese characters. By combining Simplified Chinese and Pinyin, this story allows you to practice reading and pronunciation simultaneously, helping you progress rapidly.

### The Story: "The Adventures of Leo and Mei"

Once upon a time, in a small village, there lived two friends named Leo and Mei. They were always curious and loved exploring the world around them. One day, they discovered a mysterious map hidden in a dusty old box.

The map showed a path leading to a secret treasure hidden in a nearby forest. Excited about the adventure ahead, Leo and Mei decided to embark on a quest to find the treasure. Armed with their curiosity and the map, they ventured into the forest, facing numerous challenges along the way.

As they walked deeper into the woods, the trees rustled with the whispers of ancient stories. The sun cast rays of light through the leaves, creating a magical atmosphere. Suddenly, they stumbled upon a river blocking their path. They needed to cross it to continue their journey.

Leo had an idea. He spotted a fallen log nearby and came up with a plan. By carefully laying the log across the river, it would serve as a makeshift bridge. Mei hesitated at first but decided to trust Leo and took a step onto the log.

With bated breath, Leo followed Mei's lead, and together they safely crossed the river. Their hearts filled with joy and accomplishment.

A young boy shares a little house in Beijing with 23 cats. His friend comes to visit, but the two of them can't sit down, can't study, and can't even eat dinner together because of all the cats. What to do? The answer, which involves a very large dog, will surprise and delight you.

This wonderful little tale is for beginning Chinese students of all ages. Its tiny vocabulary of just 101 words is taken from the HSK1 list of words used to teach beginning students of Chinese. Each page of Simplified Chinese is faced by an opposite page of pinyin (phonetic spelling), so if a reader gets stuck on an unfamiliar word they can check it against the pinyin. A complete glossary and English translation is in the back of the book, and a free audiobook is available on YouTube and can be downloaded from the Imagin8 Press website.

Twenty Three Cats is written by Jeff Pepper, best-selling author of the multi-volume Journey to the West series for beginning and intermediate Chinese readers, and many other books including innovative translations of the Chinese classics Dao De Jing, San Zi Jing, and The Art of War.

#### REVIEWS FROM CHINESE TEACHERS:

“Twenty Three Cats is a very cute story, an easy read for beginning Chinese learners. Repetitions in the vocabulary and sentence structure help novice students learn easily. The drawings are vivid and thoughtful to reflect the reading. I love that the pinyin is provided on the opposite page for a quick reference, and not next to the characters directly. I also find it useful for novice learners to have an English version of the story as well as a glossary towards the end of the book.”
