

Don't Miss Out on the 10th CCF International Conference NLPCC 2021 in Qingdao, China this October!

Are you ready for one of the most anticipated events in the field of natural language processing and Chinese computing? The 10th CCF International Conference NLPCC 2021 is just around the corner, and it is set to be an unforgettable gathering of experts, researchers, and industry professionals. Join us in Qingdao, China from October 13-17, 2021, for a week full of insightful discussions, groundbreaking research presentations, and networking opportunities.

What is the CCF International Conference NLPCC?

The CCF International Conference on Natural Language Processing and Chinese Computing (NLPCC) is an annual event organized by the China Computer Federation (CCF), aimed at fostering the exchange of ideas, research findings, and technological advancements in natural language processing and Chinese computing.

Since its inception in 2012, the NLPCC conference series has gained international recognition as a leading platform for experts, scholars, and practitioners from academia and industry to come together and discuss the latest developments in the field of language processing and Chinese computing.

Conference Highlights:

1. Keynote Speeches by Esteemed Experts

Get ready to be inspired by the visionary keynotes delivered by renowned experts in the field. These influential speakers will share their groundbreaking research, insights, and predictions, setting the tone for the conference and sparking innovative ideas.

2. Research Paper Presentations

Be at the forefront of cutting-edge research in natural language processing and Chinese computing by attending the research paper presentations. Discover the latest breakthroughs, methodologies, and findings shared by researchers from around the world.

3. Workshops and Tutorials

Participate in hands-on workshops and tutorials conducted by industry professionals, where you can acquire new skills, gain practical knowledge, and learn about the latest tools and techniques used in the field of language processing and Chinese computing.

4. Poster Sessions

Engage in meaningful discussions with researchers during the poster sessions. This is an excellent opportunity to learn more about ongoing research projects, ask questions, and establish connections with experts in various subfields of natural language processing.

5. Industry Exhibition

Explore the cutting-edge technologies, products, and services offered by industry leaders in the exhibition area. Discover how businesses are leveraging natural language processing and Chinese computing to transform industries, solve complex problems, and improve user experiences.

6. Networking Opportunities

Establish connections, build collaborative relationships, and exchange ideas with fellow researchers, professionals, and industry leaders during the conference's numerous networking events. Take advantage of this unique chance to expand your professional network and pave the way for future collaborations.

Why Attend NLPCC 2021 in Qingdao, China?

As the world's second-largest economy and a leading hub for technological advancements, China holds a unique position in the field of natural language processing and Chinese computing. By attending NLPCC 2021 in Qingdao, China, you will have the invaluable opportunity to:

1. **Connect with Influential Experts:** Network with influential researchers, scholars, and industry leaders who are shaping the future of natural language processing and Chinese computing.

2. Stay Up-to-Date: Get up-to-date with the latest research trends, methodologies, and technological advancements in the field, so you can stay ahead of the curve in your own work.
3. Present Your Work: Share your own research findings and insights with a highly knowledgeable and engaged audience, receiving valuable feedback and expanding your visibility in the academic community.
4. Explore Qingdao: Immerse yourself in the cultural beauty of Qingdao, known for its picturesque coastal landscapes, historical sites, and delicious cuisine. Take some time to explore this charming city during your stay.

The 10th CCF International Conference NLPCC 2021 in Qingdao, China promises to be an unmissable event for anyone involved or interested in the field of natural language processing and Chinese computing. With its diverse program, esteemed keynote speakers, and numerous networking opportunities, it is an excellent platform for knowledge exchange, collaboration, and the exploration of the latest advancements in the field. Don't miss out on this unique experience - mark your calendars for October 13-17, 2021, and join us in Qingdao!
