What does it take to survive in the unknown?

Explorer and survival expert, Ed Stafford captures the spirit of adventure in 25 of the greatest expeditions of all time.

From 1864-2018, intrepid explorers blazed a trail with round-the-world records, the ascent of Everest, crossing the Australian desert by camel and kayaking the North Atlantic Ocean. They conquered mountains, deserts, jungles and seas venturing into the most remote and inhospitable climes on the planet.

Peeking inside each kit bag (including his own), Ed Stafford reveals how the great explorers achieved their awe-inspiring missions to find out more about our world, and how the equipment they carried with them determined the success or failure of their expedition.

Ed Stafford is a British explorer and the face of survival on the Discovery Channel. He holds the Guinness World Record for being the first person ever to

walk the length of the Amazon River.

‘Walking from the Pacific, over the Andes and along the entire length of the Amazon to the Atlantic is truly extraordinary ... To do all this in more than 800 continuous days with just a backpack puts Stafford's endeavour in the top league of expeditions past and present.’

Sir Ranulph Fiennes

EPIC EXPEDITIONS was first published as an illustrated, large format hardback under the title EXPEDITIONS UNPACKED: What the Great Explorers Took into the Unknown. This new paperback edition includes a black and white photograph of each explorer and a black and white illustration of their kit.
