This book is a must-have narrative for your woodland forest or field nature story collection. It is one of my son's favorite books.

Join the author as he describes in detail the wildlife, plants, and flowers found in your neighboring woods. This is a mature narrative for your middle or high school

students studying the natural world of the woodlands. as a parent, you will appreciate the formal Latin names in the text, but your son or daughter will appreciate the charcoal sketch illustrations and the musical segments to play the animal sounds. Win-win all around! High five everyone! You are never too old for nature.

This ebook is a digitally remastered copy, from the first edition, of the publication. It has been preserved in its original typeface with original sketch illustrations for your enjoyment.

At The Living Books Library, you don't just own a book, you own a piece of history.

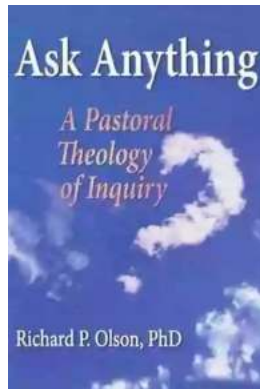

269 pages (approx.) with original sketch illustrations.
