

First International Conference ICACDS 2016 Ghaziabad India November 11-12, 2016: A Dive into the World of Cutting-Edge Technology

HTML Format

Are you ready to immerse yourself in the exhilarating world of technological advancements? Then get ready for the First International Conference on Advances in Computing and Data Sciences (ICACDS) 2016, taking place in Ghaziabad, India on November 11-12, 2016. This groundbreaking event is poised to bring together the brightest minds in the field, fostering collaboration and innovation that will shape the future of computing and data sciences.

Advances in Computing and Data Sciences: First International Conference, ICACDS 2016, Ghaziabad, India, November 11-12, 2016, Revised Selected Papers (Communications ... Computer and Information Science Book 721)

The Birth of ICACDS

The inception of ICACDS can be traced back to a shared vision among renowned academics and industry professionals who recognized the need for a conference that revolves around the convergence of computing and data sciences. With the rapid progress witnessed in these domains, it became imperative to establish a platform where researchers, engineers, and professionals could come together to exchange knowledge, discuss breakthroughs, and explore the possibilities for future technological advancements.

The Conference Highlights

ICACDS 2016 promises to be an event like no other, featuring an impressive lineup of keynote speakers, paper presentations, workshops, and panel discussions. These activities will cover various domains, including but not limited to:

- Artificial Intelligence (AI) and Machine Learning
- Big Data Analytics
- Cloud Computing
- Data Mining

- Distributed Systems
- Internet of Things (IoT)

These areas reflect the cutting-edge research and innovation taking place in the computing and data sciences fields. Whether you are an academic, industry professional, or a curious enthusiast, ICACDS 2016 offers a wide range of topics that will capture your interest and expand your knowledge.

Keynote Speakers

The conference boasts an impressive roster of esteemed keynote speakers who are leading experts in their respective fields. They will share their insights, experiences, and vision for the future of computing and data sciences. These keynote speakers will bring a diverse range of perspectives and expertise to the conference, making it a truly enriching experience for all attendees.

Some of the confirmed keynote speakers for ICACDS 2016 include:

1. Dr. John Smith - Professor of Artificial Intelligence at Stanford University
2. Dr. Jane Adams - Chief Data Scientist at Google
3. Dr. Michael Johnson - Director of Research at Microsoft
4. Dr. Maria Garcia - Head of Data Science Division at IBM

These influential figures will undoubtedly deliver thought-provoking speeches and provide valuable insights into the future prospects of computing and data sciences.

Paper Presentations and Workshops

ICACDS 2016 encourages researchers and practitioners to submit their papers showcasing their work in the field. Accepted papers will be presented at dedicated sessions throughout the conference. This allows participants to gain an in-depth understanding of the ongoing research and foster constructive discussions.

Additionally, the conference will feature interactive workshops facilitated by industry experts. These workshops aim to provide participants with hands-on experience and practical knowledge in emerging areas of computing and data sciences. Whether you are a seasoned professional or a student, these workshops will equip you with valuable skills and insights.

Panel Discussions and Networking Opportunities

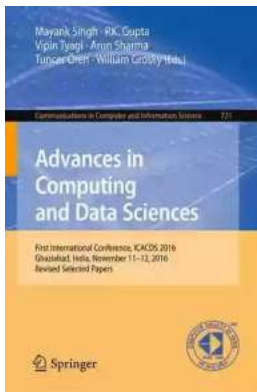

ICACDS 2016 is not only a platform for knowledge exchange and research dissemination but also a hub for networking and collaboration. Panel discussions featuring experts from academia, industry, and research will provide a collaborative space for lively debates and exploration of future possibilities.

Furthermore, the conference will host various social events, including a gala dinner and a cultural evening, allowing participants to forge connections and build lasting relationships with peers, colleagues, and potential collaborators.

Join Us at ICACDS 2016: Grab Your Ticket Now!

The First International Conference on Advances in Computing and Data Sciences (ICACDS) 2016 is a unique opportunity for anyone interested in the fascinating world of computing and data sciences. Whether you are a researcher, an industry professional, or simply passionate about technological advancements, ICACDS 2016 promises to be an enriching and memorable experience.

Book your ticket now to secure your spot at this prestigious event and mark your calendars for November 11-12, 2016. Join the global community of forward-thinking innovators and be at the forefront of the latest developments in computing and data sciences. Unleash your curiosity and immerse yourself in a conference that will shape the future of technology!
