Listen and Learn

Parallel audio is the key to Lingo Jump's language-learning methodology. Through repetition of clearly pronounced words and phrases at a tempo that's easy to follow, you'll not only find it easier to understand and speak German, you'll also improve your memory, boost your listening skills, and pick up the correct accent.

Our speakers follow a specific speech pattern throughout the audiobook, making phrases predictable, and helping you understand words and phrases through context. We keep you solely focused on the language, without any distracting background music.

Talk Like a Local

We know that not everyone speaks in the same way. Dialects, tempos, and accents can vary among a country's regions, and even among quarters within a city. So when you start, you'll hear our audiobook narrators using different intonations of repeated phrases, slowing them down, speeding them up, and placing emphasis on different parts of the phrases. This helps accelerate your ability to understand and speak the language naturally.

Fast, Effortless, and Fun!

Lingo Jump's unique parallel audio language learning system combines repetition, different speeds, and predictable speech patterns. Simply listening to the repeated phrases helps you pick up languages by instinct, preparing your brain for a language's repeated patterns. It's like we're throwing a ball to you in the same way over and over so that soon you can catch it without thinking about it.

Perfect for All Levels

Lingo Jump is ideal to get beginners speaking a German almost immediately. The parallel audio system also helps intermediate and advanced speakers achieve fluency in a new language.

As you progress, the parallel audio system has you repeat phrases at their natural tempo, removing the slower versions. You can put your newly acquired listening and comprehension skills to the test in the final chapters, where you'll listen to the phrases without any parallel audio. This motivating feature helps you track your improvement, and gets you speaking German with confidence.

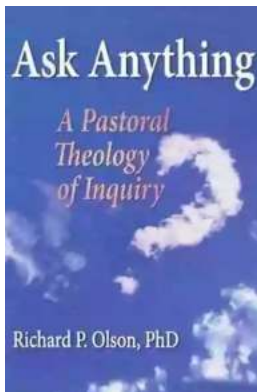

Swift Self-improvement

We've designed the first two chapters so that they offer easy immersion. Our speakers break down each word into their distinct syllables and speak slowly.

This helps you catch every nuance of the language, making it easier for you to improve your listening and speaking skills all by yourself.

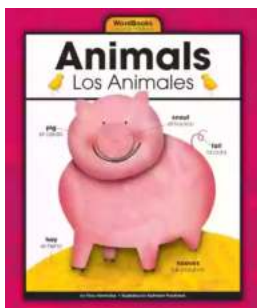

Learn Anywhere

We've specifically developed our language courses for audio learning, so you can complete other tasks while learning German. You can learn while you are running, working out, walking, driving, or even when you are doing chores. Our parallel audio learning system teaches you wherever you are, without requiring a reference manual.
