Located off the coast of Nagasaki, Japan, Battleship Island, also known as Hashima Island, is a hauntingly stunning place frozen in time. This abandoned city was once a bustling coal mining settlement that provided fuel for the industrialization of Nagasaki. The crumbling buildings and decaying structures offer a glimpse into the lives of the workers who once inhabited this desolate island. Its mysterious atmosphere has made it a popular setting for movies and video games.

Pripyat, Ukraine

The infamous city of Pripyat, located near the Chernobyl Nuclear Power Plant, stands as a chilling reminder of the catastrophic nuclear disaster that occurred in 1986. Evacuated following the reactor explosion, Pripyat has become a ghost town frozen in time. Nature has slowly reclaimed the city streets, blending with the decaying buildings to create an eerie and post-apocalyptic landscape. Pripyat is a testament to the devastating consequences of human error and a sobering reminder of the power of nature.

Craco, Italy

Perched high on a hilltop in the region of Basilicata, Craco is an abandoned village with a rich history dating back over a thousand years. Due to natural disasters and economic decline, the inhabitants were forced to abandon the village in the 1960s. Walking through the deserted stone streets of Craco feels like stepping into a forgotten time. The crumbling buildings and empty squares are a testament to the village's resilience and serve as a melancholic reminder of its former glory.

Poveglia, Italy

Located in the Venetian Lagoon, Poveglia Island is rumored to be one of the most haunted places in the world. Once used as a quarantine station for those afflicted with the bubonic plague, it later housed a mental asylum where unspeakable horrors occurred. Today, the crumbling buildings echo with the whispers of history, and the overgrown vegetation adds to the eerie atmosphere.

Gunkanjima, Japan

Gunkanjima, also known as Battleship Island, is another abandoned destination in Japan. Situated near Nagasaki, this island was once a thriving coal mining community. However, when petroleum replaced coal as the main energy source, the island was abandoned, resulting in a surreal landscape of crumbling apartment buildings and long-forgotten streets. Gunkanjima has gained popularity as an iconic location for urban explorers and photographers.

Kolmanskop, Namibia

In the Namib Desert, the abandoned town of Kolmanskop stands as a relic of the diamond mining boom in Namibia. Once a bustling town with luxurious amenities, Kolmanskop is now buried by sand, creating an otherworldly setting. Exploring the dilapidated homes and sand-filled rooms reveals a captivating scene of isolation and decay.

Abandoned destinations have a unique allure that attracts adventurers and history enthusiasts alike. They provide a glimpse into the past, reminding us of the impermanence of human endeavors and the power of nature's reclamation. Whether it's the haunting beauty of Battleship Island in Japan, the desolate streets of Pripjat in Ukraine, or the forgotten charm of Craco in Italy, each abandoned destination has its own story to tell.

As you plan your next journey, consider embarking on an adventure to these unexpected atlases. Let the abandoned destinations of the world unveil their secrets to you, and let your imagination roam freely in the remnants of forgotten civilizations.

Remember, though, to always prioritize safety and respect any restrictions or guidelines in place for visiting these abandoned destinations. Happy exploring!

Explore the places that time forgot. Abandoned, mysterious, sleeping monuments around the world have been relegated to the margins of history, pushed off the map and out of sight.

From ancient ruins and crumbling castles to more recent relics – an art deco New York subway station, a Soviet ghost town in the Arctic Circle, a flooded Thai mall teeming with aquatic life – Travis Elborough takes you on a journey into these strange, overlooked and disappearing worlds and immortalises their fates.

Original maps and stunning colour photography accompany Travis Elborough's moving historic and geographic accounts of each site. The featured locations are a stark reminder of what was, and the accounts in this investigative book help to bring their stories back to life, telling us what happened, when and why, and to whom.

The book features 40 sites, including:

- Santa Claus, Arizona, USA: A festive tourist resort turned ghost town deep in the desert where once you could meet Santa Claus any day of the year;
- Crystal Palace Subway, London, UK: One of the city's best-kept secrets is an underground, cathedral-like relic from where many Victorian commuters bustled through;
- Montserrat, West Indies: The small Caribbean island with a population of 5,000 that was evacuated when its volcano erupted in 1995. The volcano is still active and nearly half the island remains a designated exclusion zone;
- Balaklava Submarine Base, Crimea: The former top-secret Soviet submarine base that was kept off all official maps and known as Object 825 GTS;
- Volterra Psychiatric Hospital, Tuscany, Italy: Once dubbed 'the place of no return', this long-closed lunatic asylum once housed 6,000 patients who were never allowed to leave.
