Wish you could just sprinkle some magic fairy dust on your computer and make it work again? Well, this is the next best thing! This is not a 300 page book on how computers work. It is an easy and simple guide that tells you "Click Here" and "Do This" to get you back up and running - fast and free!

If you need a concise easy-to-follow guide that will let you get straight to fixing your PC, then this is the book for you. Computer won't boot up? Does a wicked computer virus have you and your PC in its evil clutches? Did some function suddenly just stop working? Are you tired of your slow computer frustrating you with its slow performance? It doesn't matter what has happened, this book has been designed to take you straight to what you need to do to get your PC running like new with a minimal amount of reading. Don't want to read; just want to get it fixed? Buy this book!

Included in this book is the author's email address which will allow you to ask questions for free. This alone is worth more than the cost of the book.

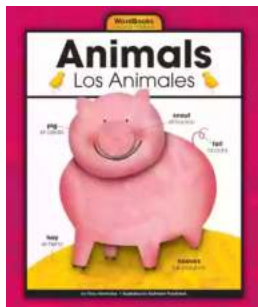

The author is a certified network engineer and has worked full time in the computer repair industry for over 20 years, doing computer security for IBM, Honeywell, AT&T, Bank One, Wells Fargo and American Express. He currently is CEO of Swarbrick Software Inc and the designer of network server failover systems. He also is owner and CEO of Certified Online Computer Repair, a remote online PC repair company.

In Magic Fairy Dust, the author gives away his best secrets that will easily save a person hundreds of dollars in repairs.
