

# Mummy Nature Children Picture - Exploring the Wonders of Nature

Have you ever wondered how children react when they are immersed in the wonders of nature? How they embrace the beauty that surrounds them, their eyes filled with awe and curiosity? Mummy Nature Children Picture captures these precious moments, allowing us to witness the magical bond between kids and the natural world.

## **The Power of Nature on Children's Imagination**

In this fast-paced digital era, children often find themselves disconnected from Mother Nature. Screens and gadgets take up most of their time, depriving them of the simple joy of exploring the outdoors. Mummy Nature Children Picture reminds

us of the transformative power nature has on children, igniting their imagination and fostering a sense of wonder.

Each photograph tells a unique story. It captures moments of pure bliss, where children run freely through fields of wildflowers, their faces beaming with joy; or when they stand in awe before a magnificent waterfall, marveling at its raw power. These images serve as a gentle reminder of the magic that lies just beyond our doorstep.

### The Healing Effects of Nature

Being in nature has been scientifically proven to have numerous benefits for both adults and children. Mummy Nature Children Picture reminds us of the healing effects it can have on our little ones. Immersing themselves in natural environments, away from concrete jungles, helps them relax, reduce stress, and improve their overall well-being.

Outdoor activities also provide an excellent opportunity for physical exercise. Whether it's climbing trees, running through fields, or splashing in puddles, children engage in movement that promotes a healthy lifestyle. These

experiences help them develop their motor skills and coordination while enjoying the freedom that only nature can provide.

## **Teaching Environmental Stewardship**

Appreciating nature at a young age nurtures a sense of responsibility towards the environment. Mummy Nature Children Picture encapsulates the essence of environmental stewardship, showing children as active participants in the preservation of the planet. These images inspire the next generation to protect and care for the Earth, promoting sustainable habits that will benefit our future.

By showcasing images of children planting trees, picking up litter, or observing wildlife, Mummy Nature Children Picture instills a love for nature and a sense of duty to safeguard its treasures. Together, we can create a greener and more sustainable world for generations to come.

## **Encouraging Curiosity and Exploration**

Mummy Nature Children Picture sparks curiosity and encourages children to explore the natural world around them. It inspires countless questions about the environment, wildlife, and the intricate ecosystem that interconnects all living beings.

Whether it's observing ladybugs in the garden or identifying different bird species, these images pique children's interest and foster a desire to learn more. Curiosity leads to knowledge, and knowledge empowers children to become custodians of nature.

## **Creating Lasting Memories**

Mummy Nature Children Picture captures timeless moments that become cherished memories. These photographs freeze time, allowing us to relive the joy

and excitement experienced by children when they engage with nature. These images not only remind us of our own childhood but also inspire us to create similar memories with our own children or future generations.

Nature's wonders offer countless opportunities for exploration and adventure. From building sandcastles on the beach to camping under the stars, these experiences shape children's lives and create lasting bonds with the natural world.

In a world where digital distractions dominate our lives, the beauty of nature often goes unnoticed. Mummy Nature Children Picture brings attention back to the importance of immersing children in the wonders of the natural world. These images inspire us to appreciate nature's healing power, foster curiosity and exploration, teach environmental stewardship, and create lasting memories.

Let us remember the significance of Mummy Nature Children Picture and strive to give our children the gift of reconnecting with nature. Together, we can raise a generation of individuals who cherish and protect our Earth, ensuring a brighter and sustainable future for all.

## MUMMY NATURE series – nurturing children's curiosity

Book 1 - Meet Bacteria!

Book 2 - Bees Like Flowers

Book 3 - Travelling Seeds

LEVEL: Preschool - 6yrs

An ideal resource for the home or classroom. Each book in the series is one mini nature lesson wrapped up in colour and rhyme. These books are intended for very young children including toddlers and will give them just a glimpse into some of the wonders of the natural world. Illustrated for maximum vibrancy and visual impact, using rhyme to engage young minds and encourage participation. Read the rhymes to your children and soon they will be reading them to you!

The narrator is a small child and keen observer who tells us in short rhyming phrases everything she thinks we should know, and all about the magical things she sees around her. Sometimes she is camouflaged in the long grass and other times she has to climb a tree to get a better look.

### 1. MEET BACTERIA!

Peek through the microscope and down into a fantastic world of teeny tiny shapes, amazing colours and little friends who want to say – Hello. Who are these bacteria? Where do they live and what do they do all day? Meet Bacteria! is for little kids brimming with curiosity. It gives them their first basic notions of bacteria; a very interesting topic for children, seldom dealt with in children's books at this level.

What we can learn:

The idea of the microscope

Why we should wash our hands

Basic bacteria shapes

Some bacteria habitat

new words: Bacteria, Microscope, Rod, Chain, Bunch, Multiply

PAGES: 26

WORDS: 253

## 2. BEES LIKE FLOWERS

Watch our happy, helpful friend the Honey Bee, always so busy and buzzy and find out why bees and flowers are such good friends. Illustrations using vivid colours include many real flower species which children may recognise from their garden or have seen growing in the wild, 3 of them are named at the end of the book too. The narrator shows us what these fascinating bugs have been getting up to in her garden.

What we can learn:

Simple ideas about the life of a bee

Bees are insects

Some common flowers: Daisy, Poppy, Sunflower

new words: Insect, Pollen, Nectar, Hive, Honeycomb, Blossoms

PAGES: 26

WORDS: 262

## 3. TRAVELLING SEEDS

Discover how seeds travel from place to place. Our narrator excitedly tells us how she saw a pear fall from a tree in the meadow and how a cow came along and ate it. Then the seed began a journey. Where would the seed end up? Would it grow into a big tree with pears of its own?

Using the pear and cow example we can stimulate more questions about seed dispersal and, like all the books in MUMMY NATURE series, Travelling Seeds can be used as a jumping off point for discussion of other topics such as seed germination, plant parts or how plants animals and people interact in nature. On the last page we can see more examples of ways that seeds can be spread.

What we can learn:

How seeds of fruit can be spread when eaten by animals or people

Other ways that seeds can be spread: by wind, by water, by sticking to travelling creatures

Simple ideas about germination

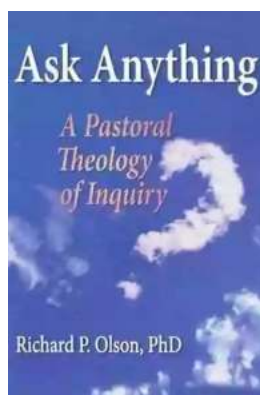

The cycle of: seed > plant > flower > fruit > seed

A cow stomach has 4 parts

new words: Germination, sprout, roots, seedling

PAGES: 24

WORDS: 283
