Property Finance is an accessible and comprehensive guide to the field of property finance, linking the practicalities of property and construction with an understanding of core financial structures and concepts. It introduces the key components of real estate investment and development cycles, and explores the interconnected roles of the financial services industry, property companies, joint ventures, banks, and real estate developers. For this edition, a new co-author, Mark Daley, has been brought on board. He brings a wealth of knowledge and teaching experience to this well-established textbook.

An ideal book for students undertaking real estate or construction-related degrees, it is also useful for personal study or further information and help in this particular area of finance.
