

# Readers Will Love These Phonics Finger Tracing Command Cards And Word Lists!

Are you ready to take your child's reading skills to the next level? Look no further than the incredible world of phonics finger tracing command cards and word lists! This innovative approach to teaching phonics combines tactile engagement with visual cues to foster reading fluency and word recognition. In this article, we will explore the benefits of using these interactive tools and how they can revolutionize reading experiences for children.

## Why Phonics Finger Tracing Command Cards Matter

Phonics finger tracing command cards are an excellent resource for young learners. They provide a multi-sensory experience by incorporating touch, sight, and sound. By using their fingers to trace the letters and words, children enhance their kinesthetic understanding of letter formation and build muscle memory.

These cards also improve fine motor skills as children learn to control their finger movements while tracing the letters. This not only aids in the development of handwriting but also enhances their ability to recognize and distinguish between different letter shapes.

Furthermore, finger tracing command cards help reinforce letter-sound correspondence. As children trace each letter, they can also say its corresponding sound aloud. This association between letter and sound promotes phonemic awareness and phonics decoding.

## **Benefits of Word Lists for Reading Development**

In addition to phonics finger tracing command cards, using word lists alongside them can significantly boost reading development. These lists consist of words that follow specific phonics patterns and are categorized based on their complexity or level of difficulty.

Word lists provide a structured learning approach, allowing children to progress gradually and improve their reading skills at a steady pace. By focusing on a particular phonics pattern, children can grasp the corresponding sound-spelling relationships more effectively, making word recognition easier and faster.

Moreover, word lists provide ample opportunities for repetitive practice. Children can read and trace the words repeatedly, reinforcing their understanding of the targeted phonics patterns. This repetition enhances their ability to identify familiar words quickly, ultimately boosting their reading fluency.

## **The Engaging Power of Interactive Learning Tools**

Phonics finger tracing command cards and word lists make learning an engaging and interactive experience for children. The tactile nature of finger tracing cards captivates young learners, as they can physically feel the shape and form of the

letters. This hands-on approach creates a sensory connection, making reading more enjoyable and memorable.

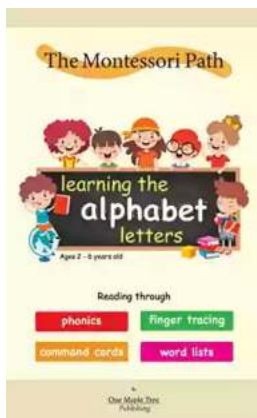

The colorful and visually appealing designs of these command cards and word lists further enhance engagement. With vibrant illustrations and eye-catching layouts, children are drawn into the world of phonics, making the learning process more exciting and motivating.

Additionally, the incorporation of command cards allows children to actively participate in their reading practice. These cards include instructions and prompts for specific actions, such as tracing letters, forming words, or even creating sentences. This level of interactivity keeps children focused and encourages independent exploration of phonics concepts.

Reading through phonics finger tracing command cards and word lists presents a transformative approach to learning phonics and improving reading skills. By combining tactile engagement, visual cues, and interactive learning tools, children are set up for success in their reading journey.

The benefits of using these tools are numerous, from enhancing fine motor skills to promoting phonemic awareness, word recognition, and reading fluency. Moreover, the captivating and interactive nature of finger tracing command cards and word lists make learning an enjoyable experience for children.

So, if you're looking to make reading a fun and engaging activity for your child, consider incorporating phonics finger tracing command cards and word lists into their learning routine. Prepare to witness the wonders of phonics as your child becomes a confident and proficient reader!

### Discovering the alphabet and learning to read through phonics, finger tracing, command cards and word lists!

The Montessori Path: Learning the alphabet letters and others in the series are based on and follow the Montessori pedagogy, developed by an Italian Physician Dr. Maria Montessori in early to mid 1900. This book focuses on language development, reading and writing aspects, which start from age 2 and progresses to age 6.

This premium colour book features:

- Is printed on 80 pages of premium colour, 100 gsm (grams per sq. meter) paper stock.
- Contains a brief instruction to Montessori with instructions on how to use the book.
- 26 pages of alphabet letters with single letter on each page,
- Each letter has arrow guides in order to aid in finger tracing and there are two images per letter.

- 20 pages of single, dual words with short 4 word sentence command cards.
- 6 pages of short vowel word lists for vocabulary building and practice
- DIY section for tips to enhance the book experience!

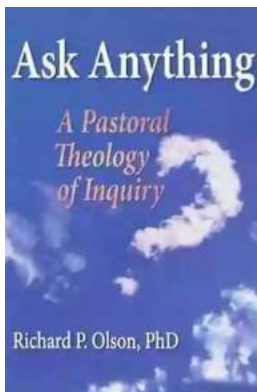

It applies the following proven Montessori methods:

- Introduces the letters as Montessori sets, rather than the usual alphabetical order.
- Alphabet letters, one per page, to be taught as sounds (phonics) vs the actual letters. E.g. A = 'ah' vs 'ay'.
- The book uses the Pink, Blue, White and Green Language Series, which is a 4-stage process that prepares and guides the child towards fluent reading. The book's primary focus is on the Pink series.
- All letters are in lowercase to help establish a strong foundation to better identify letters to form words.
- Letter finger tracing arrow guides to show the child how to write / trace them.
- Word recognition by action through Command words.
- Once the child has good grasp on tracing the letters, is able to recognize words through command words, they can be introduced to the word lists of short vowel CVC words to increase the child's vocabulary and reading skills.
- Do-It-Yourself Section: Get the most out of the book and enhance the learning experience with sensory texture, custom command cards and more!

A child in Montessori education acknowledges that all children have various learning ways and styles. The Montessori Path book series allows the child to learn at their own pace, guided by their parent or teacher. Starting with your child

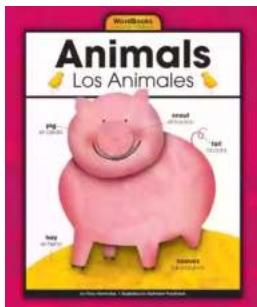

from an early age using the Montessori methods, individual lesson plans and the books in this series you will create a new set of skills and tools for them. These abilities will begin to click when they reach the ages of 3 - 5 and you will be amazed at how quickly they will start reading and writing!

The Montessori Path: Learning the alphabet is the first of many books soon to come to Amazon and book stores near you.
