Once a child learns that letter H huffs and huffs because he hikes a hill, “Huh-uh-huh”, he can hardly ever forget that letter H says, “Huh”! A child can learn that letter A is afraid, “Aaaah! Or that letter U gets upset, “Uhhh”! The McClure Method makes learning to read so simple. See it! Say it! Remember it! Wow! “By the 2nd semester of preschool, my son knew every letter’s sound! By the end of the year, he had read over 453 books! At the beginning of first grade, he was tested using the McCall’s system to determine his reading/spelling level. He tested at nearly a 4th grade level!” Chelsea Faiva “I had heard that if you go into Mrs. McClure’s program, you come out reading. I was a bit skeptical, but my daughter read 625 books that semester and started kindergarten already reading!” Andrea Hall Lofgran “As a teacher, I have reviewed more than a dozen programs and although many have merit, Gail’s is absolutely remarkable! In my classroom, my children have more fun learning and retaining what they learn using her system of sound development, story telling, actions and review. It makes my job a joy to teach. This is a tool that every teacher should have!” Tiffany Walters
