## **The Legend of the Lake Michigan Triangle**

Just like the infamous Bermuda Triangle, the Great Lakes have their own mysterious zone of strange occurrences, known as the Lake Michigan Triangle. This triangular region stretching from Manitowoc, Wisconsin to Ludington, Michigan and south to Benton Harbor, Michigan, has seen numerous disappearances of ships, planes, and even people. Shifting Truths Great Lakes Investigations aims to uncover the truth behind these vanishings, exploring possible explanations such as magnetic anomalies, underwater vortexes, or even extraterrestrial involvement.

## The Haunting of the Edmund Fitzgerald

On November 10, 1975, this massive ore carrier sank in Lake Superior during a violent storm, taking the lives of all 29 crew members. Shifting Truths Great Lakes Investigations has conducted numerous dives to the wreckage to unravel the mysteries surrounding the sinking, including theories about sudden rogue waves, structural failures, or even propulsion issues caused by unknown forces. The team's findings may finally bring closure to the families of those lost at sea.

## **Unexplained Phenomena in Lake Ontario**

Lake Ontario, the easternmost lake in the Great Lakes system, is no stranger to mysterious happenings. Shifting Truths Great Lakes Investigations has received reports of unexplained sightings, including strange lights, unidentified submerged objects (USOs), and even alleged encounters with lake monsters reminiscent of the legendary Loch Ness Monster. The team aims to explore these phenomena scientifically, using cutting-edge equipment and advanced diving techniques to capture evidence and unravel the truth behind these mysterious occurrences.

## **Exploring Ancient Shipwrecks**

The Great Lakes are a graveyard for thousands of shipwrecks spanning several centuries.
