This book is a non-fiction account of a family caught in a cult for 25+ years.

The book describes the deception and manipulation that changes the person's life forever. As a young couple we entered into what we thought was a Christian church only to find out there were rules and stipulations that spiraled down into cultish practices.

Our three children have been held captive for ten years. One child and her family, husband and three children have escaped but we still have two children and seven grandchildren, we have never met, imprisoned there.

In a cult up becomes down and light becomes dark. God becomes man and the followers have no choice but to hear and obey what that man says. Direction as far as education, livelihood, hopes, dreams, spouses even wardrobe are no longer your decision. The "man" chooses for you and you obey or enter "outer darkness" when you leave this world.
