

# The Decline And Fall Of Child Protective Services | The Grim Reality

Child Protective Services (CPS) is an integral part of our society, entrusted with the responsibility of safeguarding children from abuse and neglect. However, recent years have witnessed a distressing decline in the effectiveness of CPS, leaving vulnerable children at risk and failing to fulfill its mission.

## **The Ideal Purpose of Child Protective Services**

Originally established with noble intentions, CPS exists to protect children from harm, ensure their well-being, and promote stable and nurturing environments.

The dedicated social workers employed by CPS play a vital role in investigating reports of abuse or neglect, providing essential support services, and advocating for the best interest of children.

### The Troubling Decline

Despite its essential purpose, CPS has been plagued by significant challenges that have severely compromised its ability to fulfill its duty. One of the primary issues is the overwhelming caseload faced by social workers. With limited resources and an ever-increasing number of cases, the system is stretched thin, resulting in inadequate attention and support for children in need.

Additionally, budget cuts and a lack of funding have further hampered CPS's ability to function adequately. Insufficient funding leads to unmanageable workloads for employees, reduced training opportunities, and limited community support programs. These factors contribute to an overloaded system that struggles to provide timely and appropriate interventions.

## **Understaffing and High Turnover**

The consequences of inadequate funding and overwhelming caseloads are reflected in staff shortages and high turnover rates within CPS. Understaffing places more pressure on existing employees, leading to burnout, increased stress, and decreased job satisfaction. This vicious cycle perpetuates the decline of CPS, creating a challenging work environment that compromises the well-being of both employees and the children they serve.

## **The Impact on Children**

The failure of CPS to protect children effectively has resulted in devastating consequences for countless vulnerable individuals. Reports of caseworkers missing critical signs of abuse or neglect, delayed investigations, and inappropriate placements have become distressingly common. Regrettably, these failures have sometimes led to tragic outcomes, including severe physical harm or even the loss of young lives.

Moreover, the decline of CPS has disproportionately affected marginalized communities, where resources and support are already limited. Children in poverty, children of color, and children with disabilities often face additional barriers in accessing adequate protection and intervention services. This perpetuates systemic inequities and exacerbates the suffering of already vulnerable populations.

## **Addressing the Crisis**

Recognizing the urgency of this crisis, it is imperative to take immediate action to revive and strengthen CPS. The following steps should be considered:

- **Increased Funding:** Adequate funding is vital to ensure CPS has enough resources to function effectively. Allocating more funds for staffing, training,

and community programs will help alleviate the burden on specialists and provide better support to children.

- **Comprehensive Training:** Professional development and comprehensive training programs are essential to equip social workers with the necessary skills and knowledge to assess, intervene, and monitor cases effectively.
- **Reducing Caseloads:** Efforts should be made to streamline the system, reduce caseloads, and ensure social workers can dedicate sufficient time and attention to each case, ultimately enhancing the quality of their interventions.
- **Improving Communication:** Establishing effective communication channels within CPS and other relevant agencies will facilitate collaboration, coordination, and timely sharing of crucial information.

## **The Time for Change is Now**

The decline and fall of Child Protective Services represent a profound failure on our part as a society to provide a safe and nurturing environment for our most vulnerable members. The consequences of this decline should not be ignored, as the lives and well-being of countless children hang in the balance.

It is time to acknowledge the challenges and actively work towards rebuilding a stronger CPS system that can adequately protect our children. By demanding increased funding, comprehensive training, reduced caseloads, and improved communication, we can ensure the future well-being of generations to come.

After a few pleasantries, I grinned, looked him in the eye, and said, “My, Johanssen, can I see your spanking strap?”

He started, because he didn’t think any of the kids knew he had it. Then he eased up, and asked, “What makes you think I’ve got a strap?”

I shrugged, “I’m clairvoyant - no kidding. I know where you keep it. Want me to go get it?” Well, he dismissed my claim to be clairvoyant, but couldn’t figure out how I knew.

But he grinned back at me, and replied, “Sure - I’ll show it to you.” And he got up and walked back to the bedroom where he’d had it put away. He cracked it through the air a couple of times, then swatted the edge of the bed with it.

Then he looked at me quizzically and challenged, “Do you want to try it out?”

So I leveled with him and replied, "Look, Mr. Johanssen, I got strapped several times while I was in America - so I'm kind of used to getting it. Eric's cousins aren't, of course, since none of them has ever gotten the strap. So I thought maybe you'd like to practice on me, before you light in on the others."

He hesitated a moment, to make sure I was really serious. Then he said, "OK, you were supposed to get it again tomorrow, anyway. Why don't we do it tomorrow - just you, me, and Eric. Sound Good?"

I'd hoped he'd strap me right then - but I had to settle for his promise that he'd give me a strapping "tomorrow." So I "hung out" with him and Eric a little longer, then he bought us lunch at one of our favorite places (and in Copenhagen, I really do know where all the good places are, even without my "powers"); and after that, he took me home.

During lunch, he hadn't mentioned spanking or strapping at all, although I'm sure he was thinking about it, just like I was. But when I went to get out of his SUV, he slapped me sharply across the tail, and teased, "Se dig i morgen! (See you tomorrow!)", and winked at me. Of course, I knew he was a "spanko" like the rest of us - but it gave me a rush or adrenalin. I guess I'd been missing Bob's strappings more than I realized.

Sic Semper Tyrannis is a memoir about a time, not so long past, when men were free, religious values were taken seriously, and parents were allowed to pass on the cultural heritage to their children without governmental interference. As David Selznick remarked concerning the Antebellum South, "Look for it only in books, for it is no more than a dream remembered, a Civilization gone with the wind . . ."

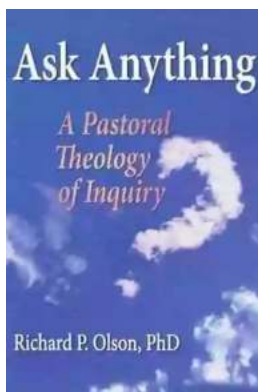

This fictional account is the story of what might have been, had Christian parents possessed the courage of their convictions. It depicts the use of spanking and

other types of physical correction, from the perspective of an adolescent boy.

Twelve year old Billy Martin has been suddenly uprooted from the only home he knows, in liberal Stockholm, and sent to live with his eighteen year old brother, Bob, who has recently joined an ultra-conservative religious group in Idaho. Billy, a high-spirited youth, has been allowed to run at loose ends for his entire life, and has never experienced discipline of any kind. He now finds himself in a vastly different world. Bob immediately sets about bringing his kid brother into line, and giving him the “Biblical discipline” that he, and the other sect members, consider essential to proper child rearing. Billy strives to come to grips with the new reality.

While the characters are wholly imaginary, the issues they confront are real, and threaten to undermine the very foundations of our civilization. This work does not contain any erotic material, but is a sobering assessment of today’s child rearing practices in the United States and Western Europe.

This is the twelfth volume of a more extensive saga, which traces the course of Billy and his friends as they struggle through the years of adolescence. It should be required reading for every adolescent boy, his parents, and all those who seek to influence him.
