The Devils and Evil Spirits of Babylonia is the Babylonian and Assyrian incantations against the demons, ghouls, vampires, hobgoblins, ghosts and kindred evil spirits, which attack mankind. The book is translated from the original cuneiform in the British Museum, with transliterations, vocabulary, notes, etc.

Babylonia, and particularly its capital city Babylon, has long held a place in Abrahamic religions as a symbol of excess and dissolute power. Many references are made to Babylon in the Bible, both literally and allegorically. The mentions in the Tanakh tend to be historical or prophetic, while New Testament references are more likely figurative, or cryptic references possibly to pagan Rome, or some other archetype. The legendary Hanging Gardens of Babylon and the Tower of Babel are seen as symbols of luxurious and arrogant power respectively. A main festival for Babylonians was the Mishtkaru Buylshu, used to ward off evil spirits. Many Babylonians, mostly males, attended this festival at a young age. At this festival, priests would kill, or sacrifice, an animal, usually an ox, in order to make the gods happy. In return, the gods would presumably give permission to the people at the festival to each obtain an amulet that would protect them for the rest of their lives.
