How does the Story Powered Language Learning Method work?

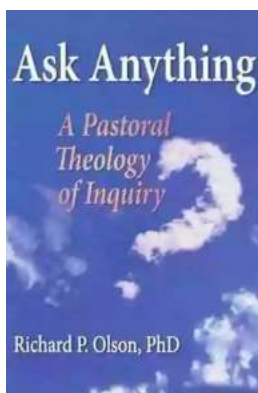

Unlike a German picture dictionary, traditional bilingual German English children’s books, german baby books or other German language books for children, the Fabulous Lost and Found uses the ‘Story-powered Language Learning Method’ to teach German to kids by tapping into a child’s natural abilities. There are three steps:

- We create an emotionally engaging and funny story for children and adults to enjoy together, just like any of the other German books for children. Studies show that social interaction, like enjoying a book together, is critical in language learning.
- Through the story, we introduce a relatable character who speaks only in the new language. This helps build empathy and a positive attitude towards people who speak different languages. These are both important aspects in laying the foundations for lasting language acquisition in a child’s life.
- As the story in this German picture book progresses, the child naturally works with the characters to discover the meanings of a wide range of fun new words and phrases. Strategic use of humour ensures that this

subconscious learning is rewarded with laughter; the child feels good and the first seeds of a lifelong love of language are sown.

Message from the Author

Mark Pallis There is a special magic about learning words another language and using them: I truly think it warms the heart. I've learnt jokes or songs in ten languages so far and it's brought me so much joy. This German book for children is first and foremost a really enjoyable story, but it's also my way of helping little learners engage with a new language, empathise with strangers and ultimately build a love of languages. And it happens without them realising. Any parent who has ever tried to smuggle vegetables into pasta sauce will know that you can get a lot of good stuff into things without kids realising. This book is the same! I want you all to have fun together and enjoy the story. All the learning is a bonus; the icing on the cake (or the extra veg in the sauce!). The idea that after a few reads, kids will be able to go up to a native speaker and tell them in their own language: 'I've lost my hat' fills me with joy. Imagine how proud the child will feel. And imagine how proud you'll feel too! I hope you have as much fun reading this German book for kids as I had writing it. Learn German kids!
