## The Victims

The victims of the Fleur De Sel Murders were not ordinary citizens. They were influential figures within the community, known for their wealth and power. The first victim was Armand Duval, a renowned salt magnate who ran the most prosperous salt marsh in town. His death sent shockwaves through Fleur De Sel, leaving everyone wondering who could have targeted such a prominent figure.

As the investigation unfolded, it became apparent that the murders were not random acts of violence. Each victim had a connection to the town's thriving salt industry, leading detectives to suspect that there was more to these killings than meets the eye. The gripping mystery deepens as the list of suspects grows.

## The Suspects

Among the pool of potential culprits, there are several intriguing figures who warrant closer scrutiny. Marie Leclerc, Duval's former business partner, had a falling out with him just days before his murder. The tension between them was palpable, and many believed that she held a grudge. Could Marie's bitterness have driven her to commit such a heinous act?

Another suspect is Jacques Moreau, a charismatic entrepreneur who recently started a rival salt business near Duval's marsh. The new enterprise was thriving, with many locals flocking to sample Moreau's salt instead. As jealousy and

competition run high, is it possible that Moreau saw Duval as an obstacle to his success?

Then there's Isabelle Girard, a brilliant chemist who had been working closely with Duval on developing a groundbreaking method of salt production. Their collaboration seemed promising, but unconfirmed rumors of a dispute over intellectual property rights surfaced. Could this have pushed Girard over the edge?

## **The Investigation**

With each twist and turn, the investigation becomes more complex. Detective Mathieu Rousseau, a seasoned investigator known for his uncanny deduction skills, is determined to unravel the truth behind the Fleur De Sel Murders. As he delves deeper into the lives of the suspects, he uncovers a web of betrayal, hidden agendas, and long-held grudges.

Follow Rousseau's journey as he interrogates friends and foes, uncovers secret affairs, and confronts long-buried family secrets. The detective's relentless pursuit of justice will keep you guessing until the very end, as he brings to light the motives and methods behind these shocking crimes.

## **The Trial and Revelation**

As the evidence begins to mount, a trial is set to determine the fate of the accused. The courtroom becomes a battleground where friendships are tested, alliances crumble, and dark secrets are exposed. Will justice be served, or will the truth remain buried beneath a veil of deception?

Commissaire Dupin is back in The Fleur de Sel Murders, this Brittany mystery from international bestselling author Jean-Luc Bannalec.

The old salt farmers have always said that the violet scent of the Fleur de Sel at harvest time on the salt marshes of the Guérande Peninsula has been known to cause hallucinations. Commissaire Dupin also starts to believe this when he's attacked out of the blue in the salt works.

He had actually been looking forward to escaping his endless paperwork and taking a trip to the “white country” between the raging Atlantic Ocean and idyllic rivers. But when he starts snooping around mysterious barrels on behalf of Lilou Breval, a journalist friend, he finds himself unexpectedly under attack. The offender remains a mystery, and a short time later, Breval disappears without a trace. It is thanks to his secretary Nolwenn and the ambition of the prefect that Dupin is assigned to the case. But he won't be working alone because Sylvaine Rose is the investigator responsible for the department—and she lives up to her name...

What's going on in the salt works? Dupin and Rose search feverishly for clues and stumble upon false alibis, massive conflicts of interest, personal feuds—and ancient Breton legends.
