

The Leaders Creating China Great Global Companies

China's rapid economic growth over the past few decades has not only transformed the country itself but also caught the attention of the world. As the second-largest economy, China is on a mission to establish itself as a global powerhouse. Behind this incredible rise are visionary leaders who have been instrumental in creating China's great global companies. These leaders have not only revolutionized their respective industries but have also played a crucial role in shaping China's global business landscape.

Jack Ma: A Pioneer in the E-commerce Industry

One of the most prominent leaders of China's global business expansion is Jack Ma, the founder of Alibaba Group. Ma's journey from humble beginnings to becoming one of the world's richest individuals is nothing short of extraordinary. He recognized the potential of e-commerce in China when most people were skeptical. Through Alibaba, Ma created an online marketplace that revolutionized the way people shop in China and beyond.

Fortune Makers analyzes and brings to light the distinctive practices of business leaders who are the future of the Chinese economy. These leaders oversee not the old state-owned enterprises, but private companies that have had to invent their way forward out of the wreckage of an economy in tatters following the Cultural Revolution.

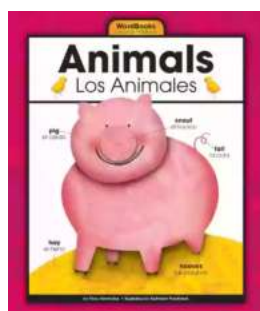

Outside of brand names such as Alibaba and Lenovo, little is known, even by the Chinese themselves, about the people present at the creation of these innovative businesses. Fortune Makers provides sharp insights into their unique styles -- a distinctive blend of the entrepreneur, the street fighter, and practices developed by the Communist Party -- and their distinctive ways of leading and managing their organizations that are unlike anything the West is familiar with.

When Peter Drucker published *Concept of the Corporation* in 1946, he revealed what made large American corporations tick. Similarly, when Japanese companies emerged as a global force in the 1980s, insightful analysts explained the practices that brought Japan's economy out of the ashes -- and what managers elsewhere could learn to compete with them. Now, based on unprecedented access, *Fortune Makers* allows business leaders in the United States and the rest of the West to understand the essential character and style of Chinese corporate life and its dominant players, whose businesses are the foundation of the domestic Chinese market and are now making their mark globally.
