

The Mind-Boggling Prophecies of Nostradamus, Stormberger, and Edgar Cayce

Are you ready to dive into the eerily accurate world of prophecy and see what the future holds? Buckle up and get ready for a mind-bending journey into the prophecies of legendary seers Nostradamus, Stormberger, and Edgar Cayce.

Nostradamus: The Enigmatic Prophet

Nostradamus, a French physician and seer, left behind a collection of cryptic prophecies that have baffled scholars and believers for centuries. Born in the 16th century, Nostradamus gained fame for his meticulous predictions about world events, often hidden within cryptic verses known as quatrains.

His prophecies covered a vast array of topics, including wars, natural disasters, and the rise and fall of leaders. Nostradamus' predictions were so diverse and detailed that many claim he foresaw events like the French Revolution, World War II, and even the terrorist attacks of September 11th.

One of Nostradamus' most striking predictions involves a great world war between major global powers. The quatrain reads:

*"From the depths of the West of Europe
A young child will be born of poor people,
He who by his tongue will seduce a great troop;
His fame will increase towards the realm of the East."*

Could this quatrain be referring to an influential leader who will emerge unexpectedly, captivating the masses with his oratory skills and making a lasting impact on the world stage? Only time will tell!

Stormberger: The Little-Known Boy Who Saw It All

A lesser-known prophet, but no less intriguing, was the boy Stormberger from Bavaria, Germany. Born in the late 19th century, Stormberger shocked his community with his detailed visions of the future.

As a young child, Stormberger foretold the outbreak of both world wars and the devastation they would bring. Locals were initially skeptical of the boy's prophecies, but as events unfolded, their doubts turned into awe.

One of Stormberger's most chilling predictions involved the Third World War, which he described in the following words:

"When the cities fall, I will return. Soldiers of steel and iron will march across nations, leaving trails of destruction behind. The world will shudder in fear as fires consume the lands. But from the ashes, a new era shall rise."

Stormberger's vision of a post-apocalyptic world might seem like a work of fiction, but the accuracy of his other prophecies leaves us wondering if his prediction of a global calamity could, in fact, come true.

Edgar Cayce: The Sleeping Prophet

Last but certainly not least, we have Edgar Cayce, the remarkable American psychic known as the "Sleeping Prophet." Cayce was renowned for entering a trance-like state to access profound knowledge about the past, present, and future.

Throughout his career, Cayce made thousands of predictions, many of which have proven to be incredibly accurate. From medical diagnoses to geological events, his accuracy was uncanny.

One of Cayce's most fascinating predictions centers around the establishment of a new age of enlightenment. He described a momentous shift in human consciousness, where humankind would universally embrace love, peace, and spiritual awakening.

Could we be on the brink of an era of unprecedented spiritual growth and enlightenment? Cayce's prophecy certainly gives us hope for a brighter future.

The Debate Continues: Fact or Fiction?

As you delve into the prophecies of Nostradamus, Stormberger, and Edgar Cayce, you may find yourself pondering one fundamental question: Are these prophecies rooted in fact or mere fiction?

Skeptics argue that vague language and cherry-picking of events contribute to the illusion of accuracy. They claim that ascribing meaning to their prophecies after the fact is nothing more than retroactive validation.

On the other hand, believers argue that the prophets possessed extraordinary insight and foresight, enabling them to see beyond the confines of time and space. They argue that the accuracy of certain prophecies cannot be merely dismissed as coincidence.

Ultimately, the interpretation and belief in these prophecies are left to the individual. Regardless of where you stand on the matter, exploring the world of prophecy can be an exhilarating and thought-provoking experience.

The Future Awaits

In a world marked by uncertainty, the prophecies of Nostradamus, Stormberger, and Edgar Cayce continue to captivate our imagination. Whether you view them as genuine forecasts or fascinating tales, one thing remains clear – the future remains an enigma that only time will unravel.

As you contemplate these prophecies and the potential paths we may traverse, remember that the power to shape the future lies in our hands. With each decision and action we take, we contribute to the tapestry of tomorrow.

Embrace the Mystery

So, let the prophecies of Nostradamus, Stormberger, and Edgar Cayce ignite your curiosity. Embrace the mystery, challenge your beliefs, and dare to explore the unknown. Who knows what revelations the future holds!

Prophets, such as Nostradamus, Stormberger, and others introduced in this new and topical book by world-renowned prophecy scholar John Hogue, accurately dated, detailed and forecast the coming of the First, the Second, and finally a “Third” World War. They never foresaw the last cold war ending in Armageddon; yet, they do predict a new cold war between America and Russia “in our future” would merely be a short prelude to the threat of a civilization-ending nuclear war that no one saw coming.

The current and gathering crisis pitting the United States and the European Union against the Russian Federation over Ukraine may have rewound the doomsday clock and started it ticking out dangerous days ahead of escalating, cold war brinksmanship. World leaders, unmindful of the consequences, are carelessly ramping up the tension while the media, especially in the West, are misinforming the public, becoming echo chambers for governments fighting an information war where the first casualty is truth.

The prophets of world wars see what could come of this. With open eyes the people of the world will “walk into these great catastrophes,” so they say. The danger begins at a time when America and Russia display eagles as their national totems.

That time is today.

In Washington, the capital of the land of the bald eagle, neoconservatives have married their hegemonic ambitions with liberal exceptionalists in the Obama administration. They intend to bring back into business a cold war military industrial complex that could perpetuate a nuclear standoff with Vladimir Putin and his oligarchs in power in Moscow under the restored banner of the double-headed eagle of the Czars as Russia's national totem.

A cold war mindset has returned. Shortly afterwards, perhaps less than a few years from now, the prophets warn that America and Russia will go to war and two-thirds of the human race could be destroyed in one terrible night.

“A NEW COLD WAR: The Prophecies of Nostradamus, Stormberger and Edgar Cayce,” sounds a prophetic alarm while there's still time to stop the Third World War from happening. Explore these prophecies. Let them open your eyes wide with an awareness that can yet save humanity from walking, with eyes wide shut, into its greatest catastrophe.

America and Russia have another destiny. Even now, they can become friends bringing peace on Earth. America's best-known twentieth-century prophet, Edgar Cayce (d. 1945), saw that hopeful future where Russia would evolve beyond communism and become the “Hope of the World” with the help and support of American friendship, not American arrogance and hypocrisy. Russia needs America to renew its constitutional tenets and lead by example.

This book of prophecy aims to help inform readers of the foreseen dangers as well as the solutions so that they can make a reality that promised Golden Age of Peace.

“A masterpiece of prophecy.”
