How to Implement Skill By Skill Comprehension Practice Rdg Lvl

1. Start by Identifying Your Weaknesses:

To begin, take a diagnostic reading assessment or evaluate your recent reading performances. Look for patterns in your reading difficulties. Do you struggle with understanding vocabulary words, making inferences, or identifying main ideas?

2. Break Down the Skills:

Create a list of the specific skills that you need to work on. Some common ones include identifying main ideas, making connections, making predictions, summarizing information, and recognizing textual structure.

3. Focus on One Skill at a Time:

Choose a skill you want to improve and dedicate focused practice sessions to it. For example, if you struggle with making inferences, find texts or exercises that provide opportunities to practice this specific skill.

4. Utilize Additional Resources:

Make use of online resources, practice books, or reading comprehension applications that offer exercises and explanations related to your chosen skill. The more you expose yourself to different types of texts and questions, the better you become at your targeted skill.

5. Review and Assess:

After practicing a specific skill, review your progress. Revisit the exercises you initially found challenging and see if you're making improvements. Analyze your performance and identify areas where you still need further practice.
