

# The Untold Story: North Korea's Military Diplomatic Campaigns from 1966 to 2008

North Korea, a reclusive and mysterious nation, has been the center of attention for decades due to its unique political system and military capabilities. While much of the world's focus has been on the country's nuclear program and human rights abuses, little is known about North Korea's military diplomatic campaigns spanning from 1966 to 2008. This article aims to unravel this untold story, shedding light on North Korea's strategic maneuvers and its impact on regional security.

## The Quiet Beginnings

In 1966, under the leadership of Kim Il-sung, North Korea embarked on an unprecedented journey of military diplomacy. The nation's first significant move involved establishing ties with China, a strategic partner that would play a crucial role in North Korea's future endeavors. This alliance aimed to counterbalance the growing influence of South Korea and its strong ties with the United States.

As the Cold War intensified, North Korea extended its reach globally, forging diplomatic ties with like-minded nations such as Cuba and Vietnam. These relationships helped create a united front against the Western powers, further strengthening North Korea's position in the international arena.

## **The Art of the Deal**

In the early 1980s, North Korea adopted a more pragmatic approach towards its military diplomacy. Instead of solely relying on ideological alliances, the nation began engaging in lucrative arms deals with countries in the Middle East and Africa. This shift allowed North Korea to generate revenue and acquire advanced weaponry without heavily relying on assistance from its traditional allies.

Throughout the 1990s, North Korea actively engaged in military diplomacy across Asia, Africa, and the Middle East. The nation offered military aid, training, and equipment in exchange for political support and economic partnerships. These campaigns not only solidified North Korea's influence in these regions but also provided valuable insights into diplomatic strategies the nation would employ in the years to come.

## **Regional Tensions and Nuclear Ambitions**

In the early 2000s, North Korea's military diplomatic campaigns aligned with its growing nuclear program. The nation sought to maximize its leverage in international negotiations by highlighting its military capabilities, often using provocative rhetoric to assert its dominance. Despite facing international criticism and economic sanctions, North Korea's campaigns continued to shape its geopolitical standing.

From 2006 to 2008, North Korea conducted multiple missile tests and underground nuclear detonations, further destabilizing the region. These aggressive acts were seen as a direct challenge to established global powers, sparking concerns about the nation's true intentions and the potential instability it could cause.

This book examines North Korea's nuclear diplomacy over a long time period from the early 1960s, setting its dangerous brinkmanship in the wider context of North Korea's military and diplomatic campaigns to achieve its political goals. It argues that the last four decades of military adventurism demonstrates Pyongyang's consistent, calculated use of military tools to advance strategic objectives vis à vis its adversaries. It shows how recent behavior of the North Korean government is entirely consistent with its behavior over this longer period: the North Korean government's conduct (rather than being haphazard or reactive)

is rational – in the Clausewitzian sense of being ready to use force as an extension of diplomacy by other means. The book goes on to demonstrate that North Korea's "calculated adventurism" has come full circle: what we are seeing now is a modified repetition of earlier events – such as the Pueblo incident of 1968 and the nuclear and missile diplomacy of the 1990s. Using extensive interviews in the United States and South Korea, including those with defected North Korean government officials, alongside newly declassified first-hand material from U.S., South Korean, and former Communist-bloc archives, the book argues that whilst North Korea's military-diplomatic campaigns have intensified, its policy objectives have become more conservative and are aimed at regime survival, normalization of relations with the United States and Japan, and obtaining economic aid.
