## Mastering the Basics

Before diving into our list of 60 drinks, let's go over the basic components that make up these cocktails. The three ingredients typically consist of a base spirit, a sweetener, and an acid. The base spirit forms the foundation of the cocktail and sets the tone for its character. It can be a classic spirit like whiskey, vodka, or rum, or even a unique liqueur.

The sweetener adds depth and balance to the cocktail, counteracting the intensity of the base spirit. Popular choices include simple syrup, fruit juices, or flavored liqueurs. Lastly, the acid component provides freshness and brightens up the drink. Lemon or lime juice are common choices, but other citrus fruits can also be used.
