This form of magic involved harnessing the mystical forces of the universe through spellwork, divination, and ritualistic practices.

One of the most prominent aspects of Norse magic was the use of runes. Runes were ancient letters or symbols that held sacred meanings. They were not only used for writing but also carried powerful energies that could be accessed by those with the knowledge of their secrets. Modern Norse Paganism is more of a spiritual path than a religion. It is based on pre-Christian Northern European people's ancient customs, beliefs, worldviews, and folkloric practices. It is also an essential subdivision of the more prominent modern religious movement, which has come to be known as "Heathenism/Heathenry." People who practice Norse Paganism might sometimes refer to themselves as "Heathens."

Seeing how it doesn't have a set doctrine or dogma, there is no way to best practice Norse Paganism. There is also no scripture or a "holy book," which makes it ideal for people who wish to feel free and authentic to themselves while practicing spirituality. The way Norse Paganism is practiced vastly varies from region to region, and there is no "correct" way to practice it. However, it still involves adhering to some tenets, customs, and beliefs.
