What you pay for in this book is not countless monotone pages or how much the author likes patting themselves on the back, nor is a book filled with nonsensical “incantations”. You pay for knowledge; short, sweet, and practical information which when correctly applied can totally transform your life. You pay for the key to access a very powerful and creative set of spells: menstrual blood magic.

This book contains practical information and format whilst openly addressing a taboo subject. Within patriarchal societies, people are dissuaded to share topics such as menstrual blood seeing it as dirty, unwanted and unclean. Such an example can be found in the Bible which many still believe: Leviticus 15:19 – “When a woman has her regular flow of blood, the impurity of her monthly period will last seven days, and anyone who touches her will be unclean until evening.” (New International Version). Yet, there is power in blood, and then there is greater power in menstrual blood. Use it!

I have made this book as a follow up on one of my most popular videos.

I will teach you how to safely use menstrual blood in your magic, create spells, oils, dispose of your spells and so much more. Please do not feel disgusted by menstrual blood as it is just a tool in your magic and it would be such a shame to waste one of the most, if not the most potent ingredients.

All the techniques presented in this book are from my personal knowledge accumulated over 18 years of practicing magic in many shapes and forms. I see no shame in my craft and this work is a reflection upon these beliefs. This book demonstrates how to use menstrual blood in love magic with the help of examples, recipes and advice. Use it to improve or change your life.

Whilst the topic is controversial the magic is powerful and useful. So, hold the knowledge, take it and use it. Good luck!

The content of this book is strictly directed towards a mature audience, and purchasing is restricted for over 18s only. If you find such issues distressing, I would not recommend this book for you. I take no responsibility over your actions or how you use this book and corresponding information.

And for those of you who will complain this book is short: this is not literature, nor is it poetry, or art. Think of it more in terms of a cookbook. You don't read a cookbook on the beach or before bed, you read it in the kitchen, while making the food. In the same way, use my book to make spells and magic.

This is after all a spell book ! Remember, you are in control of your own path.
